### 2018 Water Quality Status Report: The Status of California's Surface Waters

By Michelle Tang, Environmental Scientist, Surface Water Ambient Monitoring Program

Thursday, September 27, 2018 | 12:00-12:30 PM

Cal EPA Building, Room 1610, 16<sup>th</sup> Floor

1001 I Street, Sacramento, CA

Remote access available – <https://meet.lync.com/cawaterboards/dawit.tadesse/8SFCK023>

Phone (audio): 1-916-562-0861

Conference ID: 83826695

The 2018 Water Quality Status Report is an annual data-driven snapshot of the Water Boards' water quality and ecosystem data. The second edition of the report, which is organized around the watershed from land to sea, features interactive data visualizations created by Water Boards staff and partners. The visualizations cover a broad range of topics, including post-fire water quality monitoring, bioassessment, and harmful algal blooms. Together, they showcase the breadth of monitoring and management activities conducted throughout the state, and demonstrate how integrated data systems can better inform our regulatory programs and adaptive management efforts.

This webinar discusses the vision for the report in the context of data storytelling.
